London, January 20.—Battles both in the east and the west now consist largely of artillery engagements, with occasional infantry attacks. The French claim further progress in the region of Pont-a-Mousson, to which military men attach much importance. It is predicted that the Germans will launch a heavy offensive, as they did with great success at Soissons, to put a stop to the French advance towards the roads leading to Metz.

The Germans captured more trenches in the Argonne, but, according to the French official report, they were not taken.

The only other point of importance disclosed by official statements is an intimation in the Berlin communication that the Germans have undertaken a counter offensive in Alsace.

In Poland and western Galicia the Germans and Austrians continue isolated attacks against the Russian lines, which, according to the Ru-

It is believed the Turkish Caucasian army will not retire to Erzerum, but will be put in readiness for defense against the Russians when they decide to advance. It is considered likely, however, that the Russian army will not advance beyond the Caucasus border.

17, however, that the Russians will be content for the present with successes already gained in this region and turn their attention to Turkish forces in Azerbaijan before invading Turkey.

Petrograd, January 20.—(Via London.)—Along a sixty-mile front from Ciechanow, south of Miawa, to Dorzyn, on the Vistula 12 miles below Plock, the Germans are on the defensive against the Russian advance towards East Prussia. Heavy artillery

"ATLANTA FOR CHRIST" TO BE REVIVAL SLOGAN

Religious Census of the Entire
City Will Be Taken on
January 30.

Dr. Marion McEl. Hull, chairman of the executive committee in charge of the Chapman-Alexander evangelistic meetings, which will be held in Atlanta during the four weeks beginning February 14, announced Wednesday that on the afternoon of January 30 there will be taken a religious census of the entire city. It is planned to complete the census in two hours, and it will be the first of its kind ever made in this city.

Every detail has been arranged by the committee to make this census the most complete count of its sort ever taken in an American city. Every home in Atlanta will be visited by a corps of trained workers, who will seek information concerning the religious affiliations of each household that is expected to be materially in making the coming revival one of the most successful ever held in the South. The slogan of the gatherings will be "Atlanta for Christ."

On the afternoon of the day set for census, M. A. Hale will be in command of the forces of Christian workers. He will divide the entire city into wards and at the head of each will be a captain. The wards will be divided into divisions, over which will preside a lieutenant. There will be sufficient census-takers scattered through the divisions to allow two persons to each city block. Through systematic arrangement it is hoped to cover the entire city in two hours.

It was announced also by Dr. Hull that Brigadier Andrew Crawford, commanding the Salvation Army forces in Atlanta, had been named as an additional member of the executive committee to take charge of the street meetings that are being planned in connection with the census.

The prayer-meeting idea, fostered by Dr. Chapman, has "caught on" in nearly every section of Atlanta. In the northeast district, including Inman Park, Kirkwood, and the University Heights, there have been organized eleven prayer-meetings, which are being held each week under the direction of W. E. Sewell.

The Point of Contact

We transact our business with you through our representatives. They're numerous. They can serve you courteously and keep your good-will for us. But also they can stint their courtesy—whereupon your favor is withdrawn in double measure.

If automobiles could be made to do this work, we'd KNOW just how you're going to be treated. Machines FEEL NO FATIGUE. GATHER NO IMPATIENCE. HAVE NO PERSONAL WORRIES.

But automobiles can't serve. Your fellow humans, WITH FRAILTIES JUST LIKE YOURS, must remain the point of contact between you and us.

Take, for instance, the conductors and motormen—our clerks behind the street-car ride counter. THEY DEAL WITH MORE PEOPLE EVERY DAY THAN YOU ENCOUNTER PEKING IN WEEKS. In all weathers and at all hours they meet EVERY FASHION OF FOLKS—the well and the sick, the pleasant and the grouchy, the old, the young, the worst and the best.

Do they fail sometimes? Very probably. They're just men, after all, WITH THEIR OWN INDIVIDUAL CHARACTERISTICS. But when they DO fail, they've broken the rule: AND THE RULE IS WHAT WE STAND BY. If a man's unit, he's needed out sooner or later. We try to keep ONLY THE BEST OF 'EM in your service.

By them you judge us. But you're fair, we know; and you'll judge WITH UNDERSTANDING.
